DataConcept

15.0" - 15.4"

Separable „3 in 1" Notebook case with trolley function for Notebook, printer and documents

The DataConcept offers a large amount of room for Notebook up to 15.4", printers, documents and mobile equipment. The nifty thing about it: Notebook and printer are separately stowed in their own cases! A simple zipper attaches both cases to each other and thereby can easily be used as a complete mobile office. In case the printer is not needed the Notebook can be transported in its own separate case. The additional and detachable document pouch for further documents is another pleasant feature.

The extremely robust and especially effective padding made of HDF (High-Density Foam) material in combination with the reinforced frame surrounds the Notebook on all sides and makes for perfect protection. Printers are perfectly fastened with optionally available DICOTA ABS printer inlays for HP DJ 460, HP Officejet H470, Canon i80/iP90 and iP100 (other printers on request). The well-designed pockets on the inside of both cases make for perfect space usage and offer room for further mobile equipment. Power supply units can be stashed in the separate cable bags. Further storage room is featured by the attached front compartment with holders for pens, cell phone and business cards.

The soft handle ensures comfortable transportation and the padded shoulder strap as well as the trolley fastening strap keep your hands free. DataConcept for Notebook and printer is manufactured from high-quality Koskin.

Separable case. especially well padded Notebook part (High-Density Foam). reinforced frame. detachable document compartment. workstation with pockets for mobile equipment. cable pouch. front compartment for pens, cell phone and such. Notebook strap. shoulder strap. trolley fastening strap.
